

WMFK STEAM BINGO

Science	Technology	Engineering	Art	Math
Mix baking soda and vinegar and watch the chemical reaction!	Sit back to back with a friend. Give them instructions on how to draw a picture you've drawn.	Create an obstacle course - challenge someone to do it!	Make a drawing using your own pattern of shapes. ♡ ◻ ◆ ♡ 🍪 ◆	Count the doors in your house - Don't forget the closets and bathrooms!
Plant some seeds in a pot or egg carton. Water regularly!	Use a magnifying glass to get up close and personal with some things around your house.	Build a tall tower with blocks, shoes, stuffed animals, or... anything!	Design and draw your dream house.	Measure the length of your body in socks.
Overfil a cup - how high can you get it?	Build a "telephone" with two paper cups and some string.	FREE SPACE Build anything you'd like!	Make a map of your bedroom, house, or neighborhood.	Find the numbers 1-20 on things around your house! See how high you can go!
Go outside and look at the moon. What phase is it in right now? (watch the phases change for 3 days)	Using your voice and no touching, "walk" a blindfolded partner through an obstacle course.	Build a paper airplane that can fly to the other side of the room.	Fingerpaint with shaving cream or whipped cream and food coloring.	Find some items in your house and sort by color, shape, or size!
Make a sourdough starter with just flour and water. Let it sit on the counter for a few days.	Play a game or put a puzzle together	Set up dominoes, books, cards, or blocks so that when you hit the first one, they all fall down sequentially.	Go on a nature walk in your back yard and use items found to make a collage.	Does your house have more... people or pets? hats or shoes? chairs or books? pencils or crayons?
